

IS THERE A . . . WHITE GENOCIDE?

Why you need to read this

- ❗ White people are becoming a minority.
- ❗ 'Diversity' excludes Whites.
- ❗ 'Anti-racists' only attack White people.
- ❗ It's unfair to me, you, and especially your kids.

Introduction

Hello, I'm Steve Goode, a writer for White Genocide Project, where we document White Genocide.

I wrote this book because I am very concerned that the future world might be even worse than it is today.

We White folk are already a global minority - that wouldn't matter, but we are also predicted to become a minority in our own countries.

We are predicted to become a minority in at least ten countries within our lifetime.

Is it really just a coincidence that many White countries simultaneously had their borders opened and then promoted a 'diversity' agenda?

Or is it something more sinister? Is it a deliberate series of policies which are intended to turn White countries minority White?

All I ask is that you at least hear our point of view. Then you can hold your head up high and say you're open-minded.

What is Genocide?

You might be thinking that 'genocide' is a little over the top, but let me explain to you why genocide really is the term that accurately describes our situation.

When most people think of genocide, they usually think of mass murder.

Actually, Raphael Lemkin, the father of the United Nations genocide conventions, said that mass murder is just one of the ways to destroy a group.

"Generally speaking, genocide does not necessarily mean the immediate destruction of a nation"

"It is intended rather to signify a coordinated plan of different actions aiming at the destruction of essential foundations of the life of national groups, with the aim of annihilating the groups themselves."

The UN genocide conventions are based on his work:

- (a)** Killing members of the group;
- (b)** Causing serious bodily or mental harm to members of the group;
- (c)** Deliberately inflicting on the group conditions of life calculated to bring about its physical destruction in whole or in part;
- (d)** Imposing measures intended to prevent births within the group;
- (e)** Forcibly transferring children of the group to another group.

What is Genocide?

Okay, so to most of you that probably sounds like lawyer talk.

But fortunately for us, Malcolm Fraser (Prime Minister of Australia 1975-83) explained genocide in lay man's terms:

"Genocide involves the attempt to achieve the disappearance of a group by whatever means. It does not have to be violent, it could be a combination of policies that would lead to a certain group dying out."

If you read the next part of this book, I will explain to you why White people are subject to a "combination of policies" that could lead to us "dying out".

White Genocide Explained

White folk like us are today facing a White Genocide because those in power have decided that being 'too White' is a problem - and this 'problem' must be solved by strictly enforcing a 'diversity' agenda upon White areas.

This is not just some agenda that is pushed for in America and Canada; it's happening basically anywhere there is a White majority.

Let me list a few:

Australia, New Zealand, Britain, Ireland, France, Germany, The Netherlands, Belgium, Norway, Denmark, Sweden, Finland, Iceland, Spain, Portugal, Italy, Switzerland, Greece, Hungary, Poland, and plenty others...

Even White areas in Southern Brazil, and Argentina.

All these places have a 'diversity' problem, but all others on the planet don't? Hmm, what is the connection here?

White Genocide Explained

There are about fifty or so majority Black countries on the planet, imagine what a huge coincidence it would be if just about every single one of those countries were decided to be 'too Black' by their governments.

What if their governments brought in non-Black immigrants without any kind of public discussion or vote?

And what if they then tried to deliberately move them into majority Black areas with the goal of making a Black minority?

It would be a pretty weird situation to hear President Jacob Zuma of South Africa say that the majority Black population must be turned into a minority, so they really can have a 'rainbow nation'.

In fact it would be genocide.

But here we are, where the policies in the above hypothetical situation are in real life, pushed on White people globally across many countries - and by our own leaders.

Don't believe me? Think this is some conspiracy theory? Well, read the next section titled "What Anti-Whites Say" and see for yourself.

What Anti-Whites Say

"The most important blank spot exists now in deconstructing the majority so thoroughly that it can never be called the majority again"

Thomas Eriksen, **professor of anthropology** at the **University of Oslo**, Norway.

"The goal is to meet the challenge of racial interbreeding"
"Not to intermarry racially is bad for the survival of the country."

Nicholas Sarkozy, ex-**President of France**.

"Germany is to be contained from the outside and heterogenized from the inside by influx, 'diluted' so to speak."

Joschka Fischer, ex **Foreign Minister** and **Vice Chancellor** of Germany.

"The White Majority is the Problem"
"The Swedes must be integrated into the new Sweden, the old Sweden will not return."

Mona Sahlin, **Party Leader** of the Swedish **Social Democrats**.

What Anti-Whites Say

"We still nurse a sense of our homogeneity and difference from others, and that's precisely what the European Union, in my view, should be doing its best to undermine."

Peter Sutherland, **EU Commissioner** and head of the World Trade Organization.

" You can see it clearly in the United States: in fifty years we will have a non-White majority."
"I can see the same changes in the cities of Western Europe... In due course, the majority may no longer be White."
"we ought to encourage the wide spread intermingling of people"

Paul Kurtz, **Professor** at Buffalo, New York

"There is no place in modern Europe for ethnically pure states. That's a 19th century idea and we are trying to transition into the 21st century, and we are going to do it with multi-ethnic states."

Wesley Clark, **U.S. general, ex-NATO Supreme Commander.**

"Europe has not yet learned how to be multicultural" "Europe is not going to be the monolithic societies that they once were"
"They are now going into a multicultural mode"

Barbara Spectre, **director** of Swedish organization '**Paideia**'.

What Anti-Whites Say

"...it is inevitable in my view that Australia will become a Eurasian country over the next century or two" "Australian Asians and Europeans will marry another and a new race will emerge: I happen to think that's desirable."

Bill Hayden, Australian ex-foreign minister.

"We'll keep bashing the dead White males, and the live ones, and the females too, until the social construct known as the White race is destroyed. Not deconstructed, but destroyed."

Noel Ignatiev, Harvard Professor.

Percentage of Whites in United States

1920	90% White
1930	90% White
1940	90% White
1950	90% White
1960	89% White
1970	87% White
1980	83% White
1990	76% White
2000	72% White
2010	68% White

Because of how the US Census bureau collected these statistics, mixed-race "Hispanics" are also counted as White.

"The bill will not flood our cities with immigrants. It will not upset the ethnic mix of our society. It will not relax the standards of admission. It will not cause American workers to lose their jobs."

Senator Ted Kennedy, speaking to the Senate regarding the introduction of the **Immigration Act of 1965**

White Genocide Explained

After reading that, most of you should be astounded that they say things as blatant as that in public. Just what are they saying behind closed doors???

Your guess is as good mine . . . but what they say is just the icing on the cake. White genocide has not been committed by them saying things about us, it's been committed by them doing things to us.

Anti-Whites are constantly trying to take White areas, make them bring in non-White immigrants, and then encourage White people to mix and be blended into a minority.

In Sweden, 2015, for example, the Swedish Migration Board (a government agency) said there [was a problem](#) with how refugees and immigrants were spread out in the various Swedish localities.

They wanted to send non-Whites to the rural areas which were all majority White Swedish, instead of sending them to the urban areas which were often minority White Swedish.

In the USA, the government has also been doing this to White areas for some time now.

It was announced (December 2014) that the Housing and Urban Development Department (HUD) was making a map of neighborhoods in the USA [by their majority racial group](#).

White Genocide Explained

The New York Post said the point of this was "to bring more low-income minorities into white suburbs".

Anti-Whites say that race isn't important, but then they pull little stunts like this.

It's like a mugger stealing your wallet and then saying, "I'll take this, because money isn't important."

Oh, and by the way, remember how Sweden's government is deliberately targeting White areas for immigration?

Well, they also want to legally deny race exists as well.

Totally nuts.

Other Genocides by Demographics

Genocide by an engineered demographics change has not just been restricted to White people.

There are a few examples of genocide by demographics being pushed on non-White groups as well.

The most well known one is happening in Tibet.

The Chinese government has been encouraging Tibetan Nomads in Tibet to mix with the majority Chinese population.

Just recently, the Chinese government has told the Tibetan media that it must [promote mixed Chinese-Tibetan relationships](#).

Over the decades of Chinese control, Tibet has faced a massive influx of Chinese, and now Tibetans have become a minority.

All that remains for the Chinese government to take full control is to mix out Tibetan Nomads by encouraging assimilation.

The Dalai Lama has spoken out against this policy several times.

“...the unabated influx of Chinese immigrants to Tibet, which has the effect of overwhelming Tibet’s distinct cultural and religious identity and reducing the Tibetans to an insignificant minority in their own country, amount to a policy of cultural genocide.”

Anti-Racist = Anti-White?

It is one of the commonly repeated phrases that we use to quickly put across our message.

Some people may be confused by it if they have heard it for the first time. Some think that we're saying "White" = "racist". We personally, are not saying that - we're saying that anti-Whites are.

There are no major "anti-racist" organizations in Africa demanding that Black people stop patrolling their borders and kicking out immigrants.

Neither are there major "anti-racist" organizations in Asia, telling Asian people that Asian areas are "boring" and need to become "multi-ethnic".

If most of the major "anti-racist" campaigns attack White people, but ignore other groups, it means anti-Whites are using "anti-racism" as an excuse.

Diversity = White Genocide?

This is another commonly repeated phrase that we use.

I shouldn't need to explain this one too much because the previous parts of this book pretty much did explain it.

When someone talks about "diversity", what they generally mean is a minority White area.

When some talks about a "lack of diversity", what they mean is it's a majority White area.

The word is used to subtly call for a White minority, therefore it's a code for White Genocide.

Some people use "multiculturalism" or "mixing the races" in place of "diversity", but it depends on the situation.

"Diversity" is definitely the number 1# word used by anti-Whites these days to describe their agenda. So it's best to stick to that in most cases.

Questions and Answers

Why is White Genocide being pushed?

That's a matter for the historians of the future.

In our present position, reasons do not matter. They are doing this to us, and we must stop them. That's all there is to be said.

How do we define White?

Anti-Whites have already defined us:

White areas are the ones which are required to become "diverse", "melting pots", and "multicultural".

White people are the ones who are naturally guilty of "racism" and "privilege".

When did all this start?

The ideology formed around about the 1960's, and slowly anti-Whites pushed their plans on the public.

Are there any certain groups behind it?

White, Black, Asian, Mixed, Christian, Jew, Muslim, Atheist, Capitalist, Socialist - there are many groups who all push this agenda.

We call all of them anti-Whites because it is accurate.

Why do you repeat certain phrases?

Firstly, people do not remember essays - they remember short and simple phrases.

Secondly, the more something is repeated, the more it is

Questions and Answers

remembered.

How did anti-Whites get some much power?

They didn't win power, they were powerful already before they formed their beliefs.

Again, this would be another matter for the historians, and does not concern us until anti-Whites are stopped.

Summary

This about concludes the book.

I will quickly sum up the book on this page with these points:

- What** White Genocide. Not a population replacement or a demographics shift - it's legally White genocide.
- How** Deliberately orchestrating a change in demographics - "diversity" and immigration for White areas only.
- Who** Anti-Whites; from various racial, ethnic, religious, and political groups.
- Where** Anywhere anti-Whites have power and Whites are the majority.
- When** Since about 1960 to the present day.
- Why** We don't know. They use a variety of excuses, but ignore non-White groups which have done the same thing.

White Genocide: An introduction was my first e-book, and as such, is a little rough around the edges.

It's still a good read, that I'd recommend to anyone who's interested in reading more about White Genocide.

But don't just take my word for it, others would also recommend this book:

"excellent for anyone interested helping get the word out about White Genocide!"

"It is the perfect tool for dealing with Anti-whites"
